*Directeur Général  
Cap DC*

# GREEN IT GLOBAL

# International Cooperation

**Green IT SIG**

## Need and benefits for

- ✓ Sharing the Green IT vision in Europe
- ✓ Fortifying Green IT leadership position
- ✓ Work and exchange more together
- ✓ Commitment with relevant organisations

**January 2017:** Signed MoU between Green IT SIG and GIT, others in progress

**February 2017:** Co-sign White Paper between AGIT and other partners

**April 2017:** Kickoff meeting to make it formal

**Today we are proud to use the  
opportunity to present**

**“Connected we are stronger,  
together we can do more”**

Green IT is

*“Information and Communication Technologies (ICT) that generate enhanced environmental, social and economic outcomes and takes into consideration the entire product life cycle including production, usage and disposal”*

We Say

We Do

We Learn

We Share

We Develop

We Transfer

**Our founding organisations**

Netherlands Switzerland United Kingdom France

**We are...**

- ⊙ a not-for-profit network of Green IT-focused organisations, collaborating as a driving force for innovation and sustainability
- ⊙ a hub for Green IT expertise, knowledge and exchange
- ⊙ a discussion and collaboration partner for industry, education, civil society and all levels of government
- ⊙ a coalition network open to expand and include others

**We aim**

- ⊙ to consolidate expertise, create and amplify positive impact as well as transcend any borders between regions and sectors
- ⊙ To show leadership, to respect and to encourage

**We do...**

- ⊙ create awareness and promote Green IT
- ⊙ use knowledge and collaboration to meet our network's goals
- ⊙ help reduce GHG emissions and increase responsible use of resources through Green IT solutions and knowledge sharing
- ⊙ connect and share opportunities to support a level playing field

# Towards 2020

## *Objectives*

1. Understand our network's reach, identify overlap and gaps
2. A comprehensive and practical assessment approach
3. Create knowledge sharing, network and collaboration (joint project) opportunities
4. Establish positive dialogue with relevant national and international policy-making and standards bodies
5. Align with the Sustainability Goals (SDG) of the United Nations
6. Establish positive dialogue with (EU) educational sector
